

# The Central Record.

TWELFTH YEAR

Entered at the Post Office in Lancaster, Ky., as Second Class Matter.

NUMBER 16

LOUIS LANDRAM, Publisher.

LANCASTER, KY., THURSDAY AFTERNOON, JULY 25, 1901.

ONE DOLLAR A YEAR

## THE HOME NEWS.

See the pretty dainties at Joseph's.

We buy old gold and silver. Thompson the Jeweler.

Through sleeping cars to Buffalo via Queen & Crescent Route.

Dr. McKee is still at work raising funds to build the Presbyterian parsonage. He tells us he is meeting with great success.

Farmer's Favorite and the Kentucky Drills are the leading Drills of the South. A car load just received by Gaines Bros.

### Hot in Louisville.

Gov. Bradley was up from Louisville Monday, returning that night. He is delighted with his new home, but says the heat is awful. "If I may be hotter," said he, "but I doubt it."

### Illness of Col. Andrew Rice.

We learn, with deep regret, that our esteemed friend, "Big Rice," is not so well, and has been suffering considerably from his old trouble, rheumatism. No man stands higher in the estimation of the people of Garrard and adjoining counties than does he, and he certainly is entitled to the great respect in which he is held.

### Sir Knights, Attention!

It is of the utmost importance that Sir Knights who contemplate going to the Louisville Conclave, attend the weekly drills at Danville. The Commandery has a lot of escort duty to do, and to make a creditable showing, the members should attend the drills. Drills are had every Friday night, at the lodge room.

### Learning Town Ways.

Louisville Times:—Our new fellow-citizen, former Gov. W. O. Bradley, is rapidly adapting himself to metropolitan ways. He has not yet been run over by the trolley cars, and has escaped gas asphyxiation at the Hotel de Watkins, where he has taken apartments. Mr. Bradley, for he surely feels it a relief now to be called plain "Mister," has a wide circle of friends here who are glad to welcome him to their midst. He is a strong addition to Louisville's legal forces, and will doubtless meet with the success that he deserves.

Bargains in buggies, etc., at Conn's.

Conn gives rebate stamps on all cash work.

Excursion rates to Pan-American Expo. Queen & Crescent Route.

### For Sale.

150 bushels seed Pye. Apply to J. A. or Fred Yeager. July 25-31

I have employed an expert machinist and am prepared to repair all kinds of engines, machines, etc.

J. B. Conn.

### Good Job For Jno. Rucker.

Richmond Register: Mr. Jno. Rucker of Paint Lick, has been appointed Superintendent of Lake Reba and the water works grounds at this place at a handsome salary.

### Help a Good Cause.

The ladies of the Methodist church will have an exchange in the Stornes building, adjoining Miss Sallie Tillett's store, every Saturday afternoon for the entire summer. They will sell and serve light breads, meats, salads, chickens, ices, cakes, etc. Proceeds for parsonage. Come around and purchase your suppers and Sunday meals and thus help a worthy cause.

### Will Issue A Daily.

Mr. Jesse M. Alverson, of the Stanford Interior Journal, was here Monday and told us they would issue a daily paper during the Hustonville Fair. Several of our merchants took advantage of his extremely low rates to advertise therein. This is an enterprise that is truly worthy of praise, and we hope the boys will reap much financial benefit therefrom.

### Sunday School Convention.

The State Convention which meets at Danville, August 20-22, will be specially noted (1) For the character of the speakers, each one being a specialist on the particular work to which he is assigned, (2) For the music: Prof. Hopkins is a splendid leader, and has prepared some specialties in the way of solos, duets, quartets and choruses that will be delightful. (3) For a display of helps and appliances, (4) The Primary Work, (5) For the unusually large attendance that is promised.

Chicken feed for sale at Marksbury & Son's.

Handsone stock of heavy twilled crash at Joseph's.

Double daily train service to Buffalo and Niagara Falls. Queen & Crescent Route.

Currey sells good goods as cheap as you pay for inferior goods at other places.

The thermometer registered 105.2 in Louisville Monday. The mercury ran out the top of the stem here, and its impossible to give the figures.

Trade at Blue Grass Grocery. Our extreme low prices will prevail anywhere before. Special attractions every day. Thousands of beautiful presents given away to our trade.

### Card of Thanks.

W. N. Grow and family take this method of expressing their thanks to the kind friends who were so attentive during their recent great affliction.

### Big Injun in Town.

The many friends of S. D. Rothwell were glad to see him on the streets Monday. He is running Dripping Springs wide open this season and tells THE RECORD he has a fine crowd of guests. "Big Injun" is a mighty clever man.

### Big Fair at Hustonville.

The New Hustonville Fair will be held July 31, August 1st and 2nd. This is one of the best fairs in Kentucky, and a large crowd always attends. If you want to have a good time, and be treated in true Kentucky style, go to the Hustonville fair. The Hustonville people certainly know how to make a stranger feel at home.

### Honors For Mike.

His Lancaster friends will be glad to know that Col. Mike F. Elkin, of Stanford, has been given an office way up at the top of the Maccabee lodge in the United States. He is a hard worker for the order, which, by the way, furnishes an excellent insurance at a low price, and the election of Mr. Elkin is a deserved recognition of his efforts for the upbuilding of the order.

### Death of an Infant.

The infant son of Rev. and Mrs. Allen R. Moore, died last week just after we went to press. The baby had been sick for several days, and his death was not unexpected. The parents have the sympathy of the community in their loss. The remains were interred at the Lancaster Cemetery.

### Big Sale Barn.

W. B. Burton has purchased of J. E. Stornes, the large tobacco barn, on Paulding street, price \$1,200. Mr. Burton, who is an extensive dealer in fine horses, is having the barn converted into a first-class, up-to-date sale and training stable. He will keep all his fine horses there, and will handle a great many more than heretofore. The report that he will run a lively stable is a mistake.

### Still after Them.

Chief of Police, S. D. Turner, and deputy, Mat Siler, are still bringing offenders to justice. On Saturday night, about 11 o'clock, four men left town riding rapidly and yelling like Indians. The officers named, procured horses and caught them about one-and-a-half miles from town and arrested them. Two confessed and paid a fine. On Tuesday they arrested Frank Lackey, colored, charged with allowing the illicit sale of whiskey on his premises. He was fined \$25 and cost. Other similar cases prove that these officers are discharging their duty faithfully, and the people are grateful for the good order which prevails.

### Will Move.

The handsome residence of Capt. Herndon, on Lexington Street, is about completed and he will move in this week. The house was erected under the supervision of R. G. Ward, and is one of the best built in Lancaster recently. Mr. Ward has made quite a reputation as a builder, as his contracts are carried out to the letter. He and family will move to the house now occupied by Capt. Herndon and Mr. Guiger and family will take possession of the house in which Mr. Ward is now residing.

### Court Day.

Monday was a decidedly off day, both in crowd, business and weather. It was as hot as blazes, and only a few of Garrard's farmers left their work to come in. The floater was here from away back. There were undoubtedly some of the toughest looking characters hanging about the streets that ever besieged a candidate. They were the white floaters, the meanest kind. The season was a little early, however, and many of them will have to come back again. The farmers who came to town reported much damage from the drouth, and a few said stock water was a little scarce. Trading was slow, as our stock column will show. There was no disturbance, and no drunks on the streets.

All kind of machinery repaired at Conn's.

Court day Monday. Yes, we're right. Look at the calendar.

Fast schedules, finest trains, to Cincinnati and North. Queen & Crescent Route.

Friday, Aug. 9, will be Elk's day at the Danville Fair. 400 Elks from Lexington will be there.

I have some extra, Southdown yearling bucks, and lambs for sale. G. T. Higginbotham, Marcellus.

### Lost.

Gold stick pin, between D. M. Lackey's and Methodist church, Sunday morning. Return to Record office.

### Teachers' Examinations.

Examinations for colored teachers will be held Friday and Saturday July 26 and 27. All will be held at the court house. Elisa Jennings Lusk, County Supt.

Services at the Baptist church Sunday, at the usual hours. Morning Subject: "The Fall of Jericho." Evening Subject: "The Unpardonable Sin." The pastor will also preach at the Herring School house at 3:30 o'clock.

### S. S. Convention.

The Sunday School Convention held in the Presbyterian church Thursday was fairly well attended, though not near so many were there as should have been. One of the delegates promised THE RECORD a full report of the proceedings, but it has not been sent in.

### Building A Good One.

The store and residence building of Miss Sallie Tillett, on Danville street, is going up with remarkable rapidity, only home carpenters, Billy George, Joe Wortham and Geo. Wright, working on it, and you know it is being done right. The foundation, made by Geo. Moran, is the finest piece of stone work done here for many years.

### Responded Handsomely.

Our plea to delinquent subscribers, in last issue, was responded to in grand style, Monday. In counting up the day's collections we found three dollars in money, six roasting ears, a basket of apples and one home-made cob pipe. We will shortly take a vacation, visit the Pan American Exposition, go to Europe and blow in the rest of the summer months. This world is full of encouragement, sure.

### Locates at Manse.

Richmond Climax:—Dr. Frank M. Walker, of this city, who recently graduated from the Louisville Hospital College of Medicine, will shortly locate at Manse, Garrard county, his old home, for the practice of his profession. Dr. Walker is a capable and popular gentleman, and no matter in what community he casts his lot he will succeed in his chosen profession.

### Dry and Hot.

The weather has been hotter for the last week than at any time this summer. A good rain fell Wednesday of last week, but the parched earth soaked it up like a sponge, and the dust was soon as deep as ever. Stock water is beginning to get scant and cisterns are low. But its no use to kick. This world is in charge of an old hand at the business, and when the proper time comes, the rain will be sent, and all the gab of earthly mortals will not amount to a hill of beans.

### GIGANTIC SCHEME.

To knit Kentucky Towns Together by Electric System.

A special from Louisville says: A meeting of capitalists is to be held at Cincinnati on Saturday, which will be of extraordinary interest to the whole State of Kentucky. A company is to be organized with the object of building a number of electric lines connecting with Shelbyville, Eminence, New-castle, Fairfield, Bloomfield, Springfield, Lebanon, Frankfort, Perryville, Harrodsburg, Danville, Stanford, Lancaster, Richmond, Nicholasville and Lexington, and not only operating through trains but local accommodation trains between these different cities. The promoters of the enterprise are the men who incorporated the Louisville Anchorage and Pewee Valley Electric Railway some time ago.

Rights of way for this line have been acquired, and work on the road will immediately be begun. The line is to be finished by March 1, 1902. A good deal of secrecy is observed about the forthcoming Cincinnati meeting, and no names of those who are to take part are obtainable, nor has the exact place of the meeting been made public. Indeed, one gentleman interested went so far as to declare that the meeting might possibly be held at Cleveland, if the fact that Cincinnati had been chosen as a meeting place would be made public. The building of the promised net of electric lines would involve about \$15,000,000 and steps for the issuance of bonds to the amount of \$12,000,000 are to be immediately taken.

Deposit your wheat at Wards mill. July 11-21

Before buying wheat drills, call and inspect those at Gaines Bros.

Dr. Goldstein will be at the Garrard Hotel next Saturday, the 27th. See ad.

If you want the lightest, strongest and best wagon you ever owned, buy a Capital from Gaines Bros.

G. M. Patterson's old express horse, that gave frequent kicking exhibitions on the streets, died a few days ago.

Joe Haselden is again on the road for the Haselden Filter, which is the best invention of the age. Buy one and have pure drinking water.

### Ice, Ice, Ice.

We are the only dealer here who handles ice in car loads. We sell pure ice, best in the state, we sell same price on wagon and at house. Farmers wanting can buy very low of us in lots from 100 to 1,000 lbs. See us before buying. W. B. Northcott.

### Fire at Nicholasville.

A special from Nicholasville says the dry goods and clothing store of M. Braun was considerably damaged by fire at a late hour Sunday night, caused by the explosion of a lamp. The loss is about \$3,000 which if fully covered by insurance. Mr. Braun was at one time engaged in business in Lancaster.

### Dr. Evans Better.

Dr. Elijah Evans is reported better. About ten days ago, he suddenly began to hiccup, and up to this time every effort to check the trouble has proven a failure. It has greatly weakened the doctor and caused alarm to his family. His many friend hope he will soon find relief.

### Writing Good Letters.

Harry Giovannoli, private secretary to Commissioner Yerkes, Washington, finds time from running the government to write some interesting letters to the Danville Advocate. Harry is a gifted writer, and all his work pleases the readers. The Kentucky press boys will be glad when he shakes off the cares of office and returns to the fold.

### Change in Light Company.

Mr. William Ward has bought the half interest in the electric light plant owned by his partner, Mr. G. M. Patterson, and will assume full control on the 15th of next month. The plant is in splendid condition and is a good paying investment. It is the most valuable improvement Lancaster has had in recent years, and the people appreciate the efforts of the management to furnish first-class service.

### A Thirsty Crowd.

There were four lemonade vendors on the streets Monday, and all sold their entire stock. The soda fountains also did a big business. Many complaints were made by people because they could find no drinking water, without going into the stores and asking for it. If some of Lancaster's moss-backs had heard the comments they would doubtless be a little more easy in their gab against water works.

### Bad Management.

Knights of Pythias, or rather members of the Endowment Rank thereof, are just now considerably worked up over the trouble in the insurance branch of the order. It appears that the officers of the Endowment Rank have made a number of worthless loans of the funds and the rank is many thousand dollars shy. The suggestion to replace the funds by an assessment of members of the subordinate lodges is meeting with a great howl, and, as a matter of course the members of the lower lodge will not consent to being taxed to raise funds for a branch of the order with which they have no connection whatever. Good business men are at work trying to straighten up the matter, but they are wasting time if they think the subordinate lodges are going to pay the fiddler.

### Teachers Institute.

The white Teachers Institute for Garrard county will be held at Court House, Lancaster, Ky., beginning August 5th, and continuing five days. Prof. G. H. Basley, Principal of King College, Bristol Tennessee.

The colored Teachers Institute will be held at Court House, Lancaster, Ky., beginning August 12th, and continuing five days.—Instructor, C. M. Reynolds, Richmond, Ky.

In regard to teachers attending institute, I refer them to Section 140 Common School Laws of Kentucky. "The County Superintendent shall revoke the certificate of any teacher who shall fail or neglect to attend the full session of the Institute, unless the Superintendent shall be fully satisfied that such failure has been caused by actual sickness or other disability."

On Monday, July 29, at County Superintendent's office an examination for students who desire to attend State College, will be held. This examination is competitive, and all students between the ages of 14 and 24 years are eligible.

E. J. Lusk, Co. Supt.

Deposit your wheat at Wards mill. July 11-31

Buggies, Surreys and Phaetons at cost, for next thirty days, at Conn's.

The Chattanooga Hancock Disc Plow has no equal for Fall plowing. Sold only by Gaines Bros.

The Richmond fair was a great success in every way, and we understand the A. O. W. will clear about \$500.

The Danville coon baseball team has won the state championship. One of its players could not now be hired to work in the corn field at ten dollars a day.

### You're Mistaken, Bro. Rock.

"Landram, of THE RECORD, has it in for Stanford and Danville."—Richmond Register.

Not on your pig tail, Bro. Rock. When they dig at Lancaster, we only dig back. Its all in fun on our part.

### Camp Meeting at High Bridge.

July 20th-28th—Reduced rates as usual from Queen & Crescent points. Sunday excursions and special train service. Great attractions at High Bridge this year. Don't fail to go. Ask Ticket Agents for particulars.—W. C. Rineason, G. P. A.

### Arm Broken.

A few days ago Mrs. Elizabeth Patterson, mother of Henry Patterson, fell at her home near town and broke her arm above the elbow. The injury is quite painful, but she is improving rapidly. She is in her sixty-seventh year, which, together with the extreme hot weather makes the accident quite severe.

### A Fine Lecture.

Evangelist A. Martin, of Muncie, Ind., delivered his lecture, "Four Years in England," to a large audience at the Christian church Monday night. The extremely hot weather prevented many from attending, but the house was well filled. Mr. Martin is a well posted and highly educated man, and this lecture is superb. He preached at the same church Sunday morning and evening to large and delighted audiences.

### The Surveyors.

The engineers are at work several miles south of town now, and will probably move camp in a few days. A great point in Garrard county's favor was scored when they found that enough excellent gravel can be obtained from Fall Lick creek, (along which the line runs,) to ballast the road through the entire county. This gravel, they say, is the very best ballast obtainable, and as it can be had in unending quantity, it is a winning card for this line. As this is the shortest route, has the best grade, and now comes to the front with enough of the best ballast, what have the doubting Thomases to say? Will our readers please allow us to say just once more, "Garrard county will get that railroad as certain as the sun shines." Have you ever read that in this paper before?

### SEA SHORE EXCURSIONS

Via the Chesapeake & Ohio Railway to Old Point Comfort and Ocean View, Va.

On July 16th the Chesapeake and Ohio Railway will run its annual excursion to Old Point and Ocean View, Va., leaving Lexington on the regular express trains at 11:20 a. m. and 8:45 p. m., reaching Old Point at noon and 6:35 p. m. the next day respectively.

Round trip tickets will be sold for \$13.00, good returning until August 4th. Sleeping car berths will be \$3.50 through in each direction and will accommodate two persons at same rate. Mr. J. Hull Davidson, for many years proprietor of Phoenix Hotel at Lexington, is in charge of the hotel at Ocean View and has made a special rate of \$2.50 per day and \$14 per week for C & O excursionists.

Ocean View is one of the most popular resorts on the coast, in full view of the Ocean and has a fine smooth beach.

To Atlantic City—On July 18th and August 15th the C & O will sell round trip tickets to Atlantic City at \$14.00 good returning twelve days. Stop-over privileges will be allowed at Washington.

Tickets will be good going on regular trains. Sleeping car berths will be \$4.00 through in each direction.

Arrange your vacation for one of these trips. The C & O can offer a diversity of scenery en route unsurpassed by any other line to the east.

Send in your names for sleeping car accommodations. Do not wait until the last few days. Ascertain what train you will go on (noon or night train) and advise.

To New York and Return—The C & O will sell round trip tickets to New York daily at \$32.70 going and returning via Washington, at \$34.45 going and returning via Old Point and the Old Dominion Steamer or going via Washington and returning via Old Point, or vice versa, or returning via New York Central or Pennsylvania Central. Tickets will be good ten days including date of sale and one stop-over will be allowed at Washington, Baltimore, Philadelphia or at Buffalo. Write for full information. Geo. W. Baney, Div. P. A. Lexington, Ky.

Bbl. Conk Shells just received at Thompson's.

New stock of Guitars and Lambrequin draperies at Thompson's.

I bought out Mr Heberling's remaining stock of flowers,—will close out cheap. J. C. Thompson.

A big crowd took in the cheap excursion to Cincinnati Sunday. Another will be run Sunday week.

### BETTER LATE THAN NEVER.

But we prefer to not procrastinate. We, with all our friends, agree that bargains can only be obtained by buying for cash. We do this ourselves and have now adopted this as our motto: Underbuy and Undersell for Cash. Do not think when you come into our store that you can not buy of us as cheap as your neighbor can, for we will treat all alike. (With bargains for cash.) Now is the time to enjoy cool, light underwear, Gentlemen's or Ladies. A few brand new Ladies and Children's Slippers left to go at a bargain. A nice Line of Lawns, India Linens and Challies, just the kind to wear now. See our line of Ladies ready-to-wear Wrappers. We handle the celebrated "Lamma Wrapper," made and warranted by The John Shillito Co., and sold at City prices.

Carpets! We can show you the most complete line to select from to be found in this section of the State. We represent the largest Carpet House in the World, who cut and make Carpets; Costs us nothing to order them for you, and brings us in contact with more people, you get bargains, we get acquainted, and perhaps in the future can sell you all your goods.

Harvesting Machine Oil, the best, lower than you ever bought it before. Fruit Jars, (Glass and Tin.) Jelly Glasses, at bottom prices.

### GROCERIES ETC.

Green Coffee, 10c up.  
Roast Coffees, 12c up.  
Granulated Sugar at market price.  
Come in and get our blended teas for making Ice Tea this hot weather.  
Remember we handle Heintz's absolutely pure apple vinegar and pickles.  
Let us show you our line of Queensware, 10 piece Toilet Sets artistically decorated, regular \$4.00 Sets only \$2.75, everything good at unheard of bargains. We thank our Shoe patrons for their liberal patronage and will say to them, this fall we will have a stock second to none, direct from the manufacturers through us to you thereby saving the middle man's profit. When in need of anything, give us a call.  
Yours for bargains,  
Ward & Sympton.

## KEEP COOL!

Screen Doors  
and Windows.

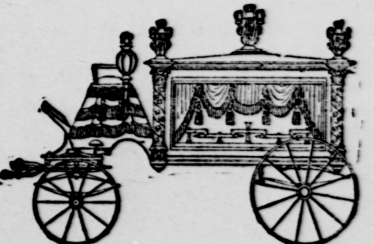

White-Mountain Ice  
Cream Freezer,  
Ice Boxes in all Sizes.  
Refrigerators.

Call and see our Oil  
Stoves and Ranges. Do  
your own cooking for 22c  
per week.

come to see us during this Great Clearance  
Sale.

The Logan Dry Goods Co.

Lancaster, Ky.

## CENTRAL RECORD.

— An Independent, Local Newspaper. —  
ISSUED WEEKLY.

LOUIS LANDRAM, Editor and Publisher.

Lancaster, Ky. July 25 1901.

A MOVEMENT was put on foot at Columbus last week by the Knights of Columbus to try and stop the custom of treating. If this can be carried to successful end, it will accomplish more good for the cause of temperance than any other one thing. It is the social crowd that stays at the bar and fills to the collar button before leaving. "Have another with me," is what keeps the boys' shoes on the foot-rail. The fellow who slips in alone to get a nip will never drink too much, as he is too stung and mean to spend over fifteen cents a week for his drinks.

With oil in the East, iron in the West and Louisville's commerce in the middle, what's the matter with the future fortune of old Kentucky? The more the merrier is our greeting to the news of foreign capital coming to open up our limitless mineral wealth. — Louisville Times.

The only trouble with old Kentucky, Bro. Logan, is her overproduction of politics and small-bore politicians. If these can be rooted out, her future fortune is assured. What we need is less politics and more git-up-and-git.

A LEXINGTON firm advertises a suit of clothes for only \$1.24. Just think over this matter, dear subscriber, and you will see how easy it will be for us to be a dude if you will only pay up for THE RECORD. We would dislike to spend that amount at one time, but we want to go to the meeting of the Press Association this year, and with one of those suits we would outshine any of the boys, and have all the girls wanting to hobsonize us.

The general association of colored Baptists will be held in Versailles, beginning August 13. Over 250 of the "brethren" will be there. There will not be a chicken left in that county. No doubt Rastus is already preparing to entertain his "company" during the meeting, and is taking every advantage of the dark of the moon.

The city council, of Madrid, Spain, has passed a law which punishes habitual drunkards by shaving their beards and heads every four weeks. If a law like this were enforced in poor old Kaintuck, the barbers would soon live in brown stone fronts.

It is reported that John D. Rockefeller "is reluctant to give advice, even to his intimate friends." Well, this is not at all surprising. Who ever heard of a rich man giving anything, even advice, and more especially to a close friend? Very few of them will even give a friend a pleasant look.

The Salmon Trust has been formed in New Jersey with a capital of \$25,000,000. The idea of tying up so much money in such an enterprise sounds a little fishy.

ALL but two New Orleans breweries are tied up by a strike. Just think of so great a calamity this hot weather.

## PREACHERSVILLE.

J. P. Rogers sold six nice heifers to J. C. Cress for \$100.

W. M. Sprinkles sold 72 lambs to E. Pence for 3 to 4 cts.

G. W. Evans sold 100 bbls. of corn to Henry Taylor for \$2.50.

Grove Kennedy sold 100 bbls. of corn to J. H. Baughman for \$2.60.

Our camp meeting was well attended and much good was accomplished.

B. D. Hartzel sold one car of new hay to Mr. Harris, of Crab Orchard for 60 cts per hundred.

B. D. Hartzel bought from J. J. Thompson the hay from 50 acres of meadow at 40c in the shock.

J. W. Cummins took the Civil Service Examination at Danville last week and we hope he will soon have a good position.

Dr. Neel of the Danville College, was in our town last week and stopped with J. L. Hutchins. Mrs. Elizabeth Hutchins, who has been visiting her children for two weeks has returned to her home in Knox county. Miss Eliza Lusk, the accomplished School Commissioner of Garrard county passed through our village Monday.

Mr. Waters, of Stanford Lincoln Democrat, was here last week. He is making a fine paper, of which the people should be proud. Miss Kate Payne is visiting at Rowland. J. F. Hartzel and wife visited relatives at Hubble Sunday. A. J. Thompson and wife attended the sale of the late Mr. Sutton in Rockcastle county last week. Mrs. F. F. Cummins and daughter, Miss Allie May, was visiting her brother at Crab Orchard last week. J. F. Payne lost from his pocket last week \$10, though he searched diligently until he found it.

You can never cure dyspepsia by dieting. What your body needs is plenty of good food properly digested. Then if your stomach will not digest it, Kodol Dyspepsia Cure will. It contains all of the natural digestants hence must digest every class of food and so prepare it that nature can use it in nourishing the body and replacing the wasted tissues, thus giving life, health, strength, ambition, pure blood and good healthy appetite. F. P. Frisbie.

Those famous little pills, DeWitt's Little Early Risers compel your liver and bowels to do their duty, thus giving you pure, rich blood to recuperate your body. Are easy to take. Never gripe. F. P. Frisbie.

## TEATERSVILLE.

Several from here went to the river Saturday. They report an enjoyable time having disposed of twenty pounds of fish for dinner and bringing twelve pounds home for supper.

Mr. Meldrum, pastor of Antioch church failed to come to fill his appointment Sunday. A protracted meeting will be held there during this month. Quarterly meeting will be held at the Chapel the fourth Sunday in this month. Besides their pastor, the presiding elder will be present. Mr. Meldrum is enjoying a vacation.

One of the saddest deaths which has occurred in our midst for some time was that of little Earnest Noel, baby of Mr. and Mrs. Jas. Jackson, which occurred on last Saturday. A large crowd attended the burying Sunday afternoon, and the services were duly impressive, many sympathetic chords being touched by the grief of the distressed father and mother. It is so hard for them to part from their bright little baby, yet they have the assurance he is happy with the Angels in Heaven.

Mrs. W. K. Leavell, sister, Miss Susie, with their guest, Miss Nannie Lowry, of Troy, Ill., have been visiting Mr. and Mrs. Jasper Bogie. W. A. Sharp, of Mercer county, has also been their guest. Mr. John Murphy, who has for some time been with his son-in-law, Allen Teater, has gone to Clear Water, Kansas, his former home, to make his future abode. John Bogie has returned from a business trip at Milledgeville. Mr. Dave Logan, of Decatur, Illinois, was with his sister, Mrs. Grow during her sickness. Misses Leila and Beatrice Ray, and Mrs. Robt. Long, Mr. and Mrs. Reather Roy are recuperating at Malory Springs. Judge A. D. Ford and wife spent Sunday with Mr. and Mrs. Robt. Burton. Mr. and Mrs. Leslie Teater and baby have been visiting Mr. and Mrs. Forest Curtis.

## JUDSON.

The oat crop in this section never was better.

A party from Lancaster, composed of Messrs. J. B. Kinnaird, J. C. Hemphill, Jake Joseph, Robt. Kinnaird, W. B. Mason and E. W. Morrow, went last week via Kentucky river on board steamer Falls City to Valley View. They report a good time from start to finish. They left their wives at home. See?

The grim reaper on Wednesday July 18th, visited the home of W. N. Grow. His wife, nee Miss Lucy Logan, was the victim. She had the almost always fatal disease, typhoid fever. Mr. Grow and sons, William and Edward not only miss her, but the entire community as well. She was all that a true woman could be, she lived right and died with the hope of immortality beyond the grave. Forcibly does the Bible quotation Rev. 14:13 impress itself upon our mind when we think of her life here in the body: "Blessed are the dead which die in the Lord from henceforth: Yea saith the Spirit, that they may rest from their labors; and their works do follow them." Funeral services were held Friday, July 19, at two o'clock p. m. Text, Rev. 7:14. J. I. Wills, of Harrodsburg officiating.

## WALLACETON.

Miss Annie Soper is quite sick with typhoid fever.

C. C. McWhorter has gone to the mountains trading again.

D. S. and Henry Botkins sold about 100 hogs a few days ago at 5 cts. per pound.

J. A. Wallace, our migratory bachelor, is here again from Jessamine county, where he had been for some time.

Although our drouth has not yet been of long duration, corn and gardens are suffering greatly for want of rain.

J. S. Rutherford has taken the contract to build the mile of new pipe from here toward Berea, and will soon begin work.

J. A. Baker lost a fine calf Monday. He rather believes it must have been bitten by a mad dog, as it was taken with very violent convulsions.

A series of meetings, conducted by Rev. F. Grider, and assisted by the pastor, J. R. Howes, will be held at the M. E. church here, beginning at 11 o'clock on Aug. 1st, and continuing until Sunday Aug. 11th.

Miss Mary Baker, who for sometime has been located at McKee, came home on Monday. She and her sister, Miss Kate, will leave in a few days for a month's visit, principally in Pennsylvania, but will also visit the exposition at Buffalo, Niagara Falls and other places of interest.

Rev. R. E. Smith died of flux on Monday, after an illness of ten days. His nine month's old son died only a few hours before and both were buried here Wednesday. Brother Smith had often preached here and was one of the most enthusiastic men we ever knew. Only two weeks before his death, he preached here—his last sermon—and in his closing remarks on the "Final Victory and Triumph," said he felt no doubt as to his final triumph, and also that it was not very far in the future, but no one, perhaps, dreamed that it was only two weeks off. A wife and eight children survive him, and have the universal love and sympathy of the community in this their darkest hour of grief.

Those famous little pills, DeWitt's Little Early Risers compel your liver and bowels to do their duty, thus giving you pure, rich blood to recuperate your body. Are easy to take. Never gripe. F. P. Frisbie.

## PAINT LICK.

The prospects are good for a large partridge crop this fall.

Blackberries are selling at five cents per gallon in our market.

Farmers that have threshed their wheat say it is just about half crop. I. C. Rucker has bought of R. H. Batson, of Lancaster, the Veranda Hotel at this place, price private.

Mrs. Sam Cochran while trying to take the top off of a fruit jar, the jar broke and cut one of her hands pretty badly.

Paint Lick is the place to buy cheap goods, a man came all the way from Danville to buy a set of parlor furniture from R. L. Jennings & Co.

Mr. C. Shumate has a field that has been cultivated in corn twenty years in succession and if it is seasonable it will make twelve or fifteen barrels to the acre this year, that is the kind of land we have around Paint Lick.

Mr. I. C. Rucker has more git up and git about him than any man we know of. He is like a fish out of water when he has not got a job. He has taken the contract to tare down and move the old bridge. He never touches anything but what he makes money.

A. A. Warren, of Stanford, was here a few days ago in the interest of the Lincoln Democrat. Miss Georgia Henry, of Lancaster, is visiting Mr. Ballard. Mrs. B. M. Lear and Miss Lydia Champ are both down with typhoid fever. Mr. T. H. Fox was here a few days ago advertising the Danville Fair, which will be held Aug. 6, 7, 8 and 9th. Will Rucker, Rodney Griggs, Cleveland Kidwell and William Gaufney Jr., went on the excursion to Cincinnati Sunday, the first two on a pleasure trip and the latter two on business. Miss Mary and Katie Beazley, of Bourbon, are the guests of the Misses Campbell. Judge Starling Davis has gone to Tennessee on business. Mr. I. C. Rucker has rented rooms of Mr. Guy Rice and he and his daughter, Mrs. Minnie Jennings, have gone to house keeping. Miss Nannie Lowery, of Jessamine county, is visiting her uncle and aunt, Mr. and Mrs. J. B. Guy. Dr. Poyntz of Richmond, was here to see his son, Dr. Edwin Poyntz, Monday. Rev. Blake, of Lexington, is assisting in the meeting at Mt. Tabor.

## MT. HEBRON.

A good rain would be a welcome guest.

Miss Alice Vanderpool is very sick at this writing.

The public school began at Sunnyside last Monday with a very good attendance.

Messrs. James Brattan and Samuel Duncan attended the Sunday School Convention last Thursday.

Mrs. Peggie Burdett and two little daughters, Edna and Della, of Kokomo, Indiana, are spending a few weeks with her mother, Mrs. Sarah Duncan. Mrs. Barnes, of Jessamine, who has been the guest of her daughters at Locust Grove, returned home Monday, accompanied by her grand son, Robt. Barker. Mrs. Parr, of Wilmore, spent the latter part of last week with her father, Mr. Cheatham. Mr. Joshua Barker and family spent last week with relatives in Jessamine county. Mr. Samuel Duncan and sister, Miss Hattie, attended camp meeting at High Bridge, Sunday.

## HAMMACK.

Newell McQuerry is very sick at this writing.

The farmers are threshing wheat in this vicinity.

J. O. Reid sold a fat cow to Fox and Lawson for \$29.25.

Mrs. C. W. Murphy has been quite sick, but is much better at this writing.

Mr. J. A. Arnold is getting along nicely with his school at Old Union. He is the right man in the right place.

Mrs. A. J. Hammack is visiting her grand parents near Cartersville. Mr. Sam Fields, wife and children, visited their aunt, S. E. Hammack, last week. Mrs. Bright Newland and children were visiting friends in Madison, Saturday and Sunday.

## GILES.

If it don't rain before long crops will be a failure in this section.

Woods Burton has been very sick with fever for the last few days.

Mrs. Rossie Waide is visiting her father, Mr. Hibbard, of Madison Co., this week.

Mr. M. May has been quite sick for the last few days, but is somewhat better at this writing.

Mrs. Rose Masters happened to a serious accident a few days ago. While going to the spring she fell and broke her leg. Her recovery is doubtful.

Fishing parties at the mouth of Paint Lick have been quite numerous this season. Wednesday was the largest fishing party of the season, Garrard, Madison and Jessamine, all being well represented.

"I wish to truthfully state to you and the readers of these few lines that your Kodol Dyspepsia Cure is without question, the best and only cure for dyspepsia that I have ever come in contact with and I have used many other preparations. John Beam, West Middlesex, Pa. No preparation equals Kodol Dyspepsia Cure as it contains all kinds of the natural digestants. It will digest all kinds of food and can't help but do you good. F. P. Frisbie.

## MARKSBURY.

The following delegates, Messrs. W. D. Marksbury, T. D. Chesnut, Everett Parks, David Swope, M. F. Rout, C. M. Jenkins and Rev. B. A. Copass, have been chosen to attend the South District Association which meets at Doctors Fork, August 20-21.

Last Saturday night Mrs. Fannie Pollard was awakened by a disturbance among her fowls. She went to the door but did not see anything. In a short time she again heard the disturbance, she aroused her son T., and sent him to see what was the matter. He soon discovered a large snake. It had killed and eaten several chickens and was making a last effort to devour the old hen. T. hastily dispatched the snake, it measured about five feet 8 inches. We think it was as bold as the snake that attacked the Louisville Commercial man between Richmond and Lancaster.

Mrs. J. T. Cecil and daughters, Misses Annie T. and Nancy, of Junction City, spent Saturday and Sunday with her mother, Mrs. Fannie Pollard. Miss Eliza Smith, of Lancaster, will open school at Mason Institute, Monday, July 29. Mr. and Mrs. A. S. Rice, of Hedgeville, spent Sunday with friends here. Mr. Henry Swope is quite sick at this writing. Mr. and Mrs. Curt Eubanks, of Hubble, spent Sunday with their parents, Mr. and Mrs. Nixon Perkins. Mr. Clyde Parks, of Marcellus, spent Sunday with his grand father, Mr. Wm Parks. Mr. and Mrs. James Yeager have returned from a very pleasant two months visit to Oklahoma and other points. Mr. Yeager thinks the West a fine country, but would rather live in Old Kentucky than any other place. Master Will Kemper, of Lancaster, spent last week with his cousin, Miss Sue Sutton. Your correspondent spent part of last week very pleasantly with friends in Kirksville. The people of Kirksville are noted for their hospitality.

## BETTIS.

Several from here attended court at Lancaster Monday and reported the dullerest court day in several months.

Mrs. Mary L. Swope opened her school at Pleasant Hill last Monday with the average number of scholars.

Am. Bourne bought of Mrs. Margaret Naylor, a mare for \$40. Kinnaird Bourne bought of Jesse Sweeney, a hog for \$4.50.

There will be preaching at Pleasant Hill Sunday, July 28th, at 3 o'clock, in the afternoon, all are cordially invited to attend. Rev. James E. Woolford will preach.

Mrs. Robert Bettis entertained half a hundred young folks Thursday evening in honor of her visitor, Miss Mamie Daily. All enjoyed the evening very pleasantly and left wishing twelve o'clock had not come so soon.

Mrs. John Underwood, of Hubble, visited her mother Monday. Mr. John Holtzclaw and wife, of Preachersville, and Mr. King, wife and daughter, of Hubble, visited the family of Sam Bourne Monday. Misses Lillie and Ella Humber, spent Sunday with Aggie Bourne. Mr. Jack Bourne and wife, spent Sunday with their daughter, Mrs. Mason Pollard, at Marksbury. Miss Mamie Daily returned to her home at Marksbury Saturday after a very pleasant visit to her aunt.

## HUBBLE.

Mr. John Walters has completed a No. 1 job of plastering at Mr. L. B. Underwood's.

The little boys and girls from 12 years and under will lead the meeting next Sunday night.

The new Hubble Academy is now finished and Dr. Hickie, from Texas, will begin school next Monday morning.

The prayer meeting still continues to grow in interest. The meeting was conducted by Elder J. A. Hammonds and Deacon Robinson.

Mr. W. H. Underwood, who recently went to Wyoming with Mrs. Holtzclaw, writes that he is delighted with the country, and is enjoying himself very much hunting wild game with his son-in-law, J. N. Holtzclaw.

Mr. H. C. Taylor and Master John Buford Miller, are visiting at Scott McGuire's. Miss Eva McKetchnie, whose pleasant home is ever inviting, was visited Sunday afternoon by Misses Mamie Underwood, Bessie Spoonamore, Katie Miller, Jannie Gover and Zora Rankin.

Rev. Mr. Moore filled the pulpit at the Christian church here Sunday afternoon at 3 p. m., and delivered a splendid discourse upon the authority of the gospel. Bro. Moore announced that he would begin his protracted meeting on Wednesday night preceding the third Sunday in August.

## Does It Pay to Buy Cheap.

A cheap remedy for coughs and colds is all right, but you want something that will relieve and cure the more severe and dangerous results of throat and lung troubles. What shall you do? Go to a warmer and more regular climate? Yes, if possible; if not possible for you, then in either case take the only remedy that has been introduced in all civilized countries with success in severe throat and lung troubles, the "Boschee's German Syrup." It not only heals and stimulates the tissues to destroy the germ disease, but it lays inflammation, causes easy expectoration, gives a good night's rest, and cures the patient. Try one bottle. Recommended many years by all druggists in the world. Get Green's Prize Almanac at Storms Drug Store.

## LOUISVILLE'S GREATEST EVENT.

The 28th Triennial Conclave of the Knights Templar of the United States, Louisville, Kentucky, August 27-30.

An Escort Committee of 700 Sir Knights will be on duty from Saturday afternoon, Aug. 24, to the following Tuesday morning. A detail of this committee will meet each incoming commandery and escort it with a band of music to its quarters.

Kentucky Grand Commandery will keep open house Monday afternoon and evening at its headquarters in the Custom House.

Indications point to the presence of 30,000 plumed knights and 125 bands of music in the Conclave parade Tuesday morning. The time of march will cover several miles of wide streets, smooth as a floor and magnificently shaded. The residence district of Louisville is acknowledged to be the finest of any city in America and the route of parade will include the handsomest blocks in the city.

Northern and Eastern Sir Knights will find particular interest in one of the entertainments of Tuesday night. At the Horse Show building a negro chorus of 200 voices will tell the story of the black man from ante-bellum

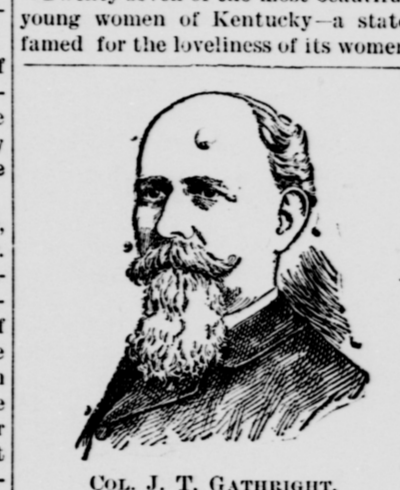

POSTMASTER T. H. BAKER, Chairman Public Comfort Committee.

plantation days to the present. Col. Will S. Hays, the noted song writer, will have charge of the entertainment. A cake walk with the best "walkers" of the South will be one of the features. Twenty-five negroes from one of the Falls City tobacco stermies will give a "silent chorus," a novelty that has aroused the interest of the most famous musicians in the world.

The competitive drill will take place Wednesday morning. The last one was held in 1883 at San Francisco. Seven of the crack drill teams of the country are already entered. Five handsome sterling silver trophies will be awarded as prizes.

Twenty-seven of the most beautiful young women of Kentucky—a state famed for the loveliness of its women

COL. J. T. GATHRIGHT, Chairman Hotel Committee.

—will act as sponsors for the contestants in the drill.

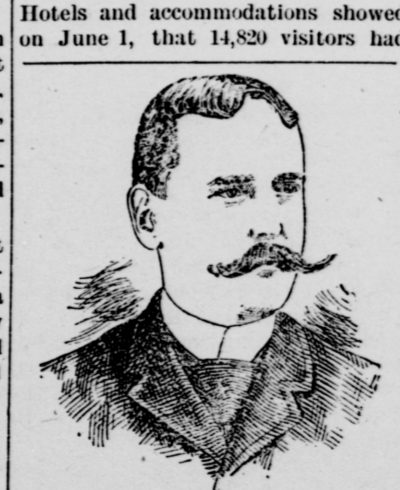

The Conclave ball is to be held Thursday evening at Confederate Hall. Knights Templar in uniform and the ladies accompanying them will be admitted free of charge to all entertainments throughout the week.

Between \$40,000 and \$50,000 will be spent in the decoration and illumination of the city in honor of the celebration.

A magnificent quadruple electric arch will be one of the most imposing decorative features. It will be eighty-two feet high, be surmounted by a revolving crown and illuminated by 5,000 incandescent lamps. The structure will cost \$7,000.

The floral arches are designed among the decorations. Each will be forty feet high and surmounted by electric fountains. The arches will be completely covered with growing plants and flowers.

The records of the committee on Hotels and accommodations showed on June 1, that 14,820 visitors had

T. P. SATTERWHITE, JR., Chairman of Grand Ball Committee.

closed contracts for quarters for use during the triennial. This is an unprecedented showing for a date for a similar period in advance of the Grand Encampment.

The same committee has now at its disposal quarters for several thousand more visitors in hotels, boarding houses, private residences and in the "Tented City" at Fountain Ferry Park. Outside commanderies will entertain lavishly during the conclave. One commandery has set aside a fund of \$15,000 to be spent in entertaining during the Louisville conclave. Another has given an order for a car load of California fruit and wine for use in its headquarters.

Burgin Record:—Postmaster W. T. West and family, of Lancaster, spent Sunday with his brother-in-law, Marshall John L. Dunn and family. Misses Bettie and Ethel West, his two daughters, will be the guests of Mrs. Dunn, during the week.

**GROW.**

God, in his infinite wisdom, called Mrs. W. N. Grow to depart this life Thursday, July 18. She had been stricken several days with that dread disease, typhoid fever. All was done that physicians, nurses and kind friends could do to keep her with us, but God said no, my hand is in this work, so in the still watch of the night the summons came and her spirit took its flight to realms above, leaving the sad, anxious watchers alone gazing on the beloved face and form from which so pure and unselfish a spirit had flown. Then our thoughts turned to the bereaved family and with streaming eyes we could only look up and say, Father, why break the union of this happy little band so soon? we can not understand it, but thy will be done.

Her maiden name was Lucy Logan, daughter of J. M. and Elizabeth Logan, who have crossed over the river many years ago. She leaves a husband and two children, Willie L. and Edward P. Grow, one sister, Mrs. Milton Layton, of Decatur, Ill., five brothers, David, William, George, Hugh and Elijah Logan, all of Decatur, Ill. She was a member of Mt. Hebron church, and to say she was a true christian, a faithful wife, a devoted mother, a good neighbor is a useless repetition of that which is so well known, and I feel that such eulogy is not a fitting tribute to the one we have known for years and never heard a harsh or cross word pass her lips. After funeral services at the family residence, the remains were interred in the Lancaster cemetery Friday afternoon at four o'clock.

**Horse Show and Carnival.**

Georgetown, July 23rd-27th—One fare the round trip, Queen & Crescent Route, daily during the Carnival from all points Junction City to Walton, inclusive. Special train to Walton, July 25th, 26th and 27th, leaves Georgetown at 10:30 p. m. Great attractions; fine display of stock and Midway programme. Ask ticket agent for further particulars. W. C. Rinearson, G. P. A.

**Figure This Out.**

Here is a Chinese problem in mathematics and may help you to while away a few hours: A rich Celestial died, leaving his property by will to his three sons as follows: To Feuden-huen, the eldest, one-half thereof; to Nupin, his second son, one-third thereof; and to Ding-bat, the youngest, one-ninth thereof. The property was inventoried and was found to consist of nothing more or less than seventeen elephants. The heirs were puzzled as how they might divide the property according to the terms of the will without chopping up an elephant and seriously impairing its value. Finally they applied to Suen-punk, a wise neighbor, for advice. Suen-punk had an elephant of his own and driving it into the yard with the other seventeen, said: Now we will suppose your father left these eighteen elephants. Feuden-huen take your half and depart. So Feuden-huen took nine elephants and went his way. Now Nupin, said the wise man, take your third and go. So Nupin took six elephants and traveled. Now, Ding-bat, said Suen-punk, take your ninth and begone. So Ding-bat took two elephants and departed. Then Suen-punk took his own elephant and drove him back home. Query: Was the property divided according to the terms of the will?—Selected.

**Question Answered.**

Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mothers' and grandmothers' never thought of using anything else for indigestion or biliousness. Doctors were scarce, and they seldom heard of Appendicitis, Nervous Prostration or Heart failure, etc. They used August Flower to clean out the system and stop fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and bad with headaches and other aches. You only need a few doses of Green's August Flower, in liquid form, to make you satisfied there is nothing serious the matter with you. Get Green's Prize Almanac at Stormes Drug Store.

**Shadow and Sunshine.**

Life is a mixture of sunshine and shadow, an amalgamation of gladness and gloom, says an exchange. The heart that beats wild and high with pleasure today, will tomorrow throb with pain, and tears that trickled down our cheeks are evaporated in the cheery warmth of our smiles. Today the baby in the cradle kicks up its heels and chuckles with innocent mirth, but to night it will be full of paregoric and colic. The school boy gets a licking and goes off to bed to dream of fire-crackers. A few years are added to his life and he begins to raise boils and go to parties with a sweet young thing who has tight shoes and a light heart. Time hurries him on and before he is aware of it he has a wife and the dyspepsia, and at last when he finally reaches the western side of the hill, he finds that his closing days are crowned with grand children and rheumatism.

**Colorado Excursions.**

Tickets via the Queen & Crescent Route to Colorado and Utah points at reduced rates, account Summer Excursions. Ask Ticket Agents for particulars. W. C. Rinearson, G. P. A., Cincinnati.

**Dont's for Girls.**

Don't argue or appear to notice other people's inaccuracies in speech.

Don't always begin a conversation by remarking on the weather.

Don't talk loudly or fast. A clear, distinct voice has great power.

Don't speak mockingly of personal defects. Somebody present may have the same.

Don't feel fault needlessly even with the weather. The habit of grumbling at other people or things is very disagreeable.

Don't talk of your family and private affairs except to intimate friends and then be careful you are not boring them.

Don't cross-examine people. It is bad form to force a confidence, but if one is made to you, you are bound to respect it.—Ex.

**GENERAL NEWS.**

5. All calls from toll 'phones will be messages and charged for.

By order of Board of Directors.  
A. H. Bastin, Pres.  
James Maret, Secy.

When a woman has a secret, nothing makes her so mad as the discovery that no one wants to know it.

"I am indebted to One Minute Cough Cure for my present good health and my life. I was treated in vain by doctors for lung trouble following a gripple. I took One Minute Cough Cure and recovered my health." Mr. E. H. Wise, Madison, Ga. F. P. Frisbie.

Almost every woman would like to know what some other woman has got to be proud of.

DeWitt's Witch Hazel Salve should be promptly applied to cuts, burns and scalds. It soothes and quickly heals the injured part. There are worthless counterfeits, be sure to get DeWitt's. F. P. Frisbie.

It isn't worth while to reason with a woman. She can only be logical with those she hates.

During last May an infant child of our neighbor was suffering from cholera infantum. The doctors had given up all hopes of recovery. I took a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy to the house, telling them I felt sure it would do good if used according to directions. In two days time the child had fully recovered. The child is now vigorous and healthy. I have recommended this remedy frequently and have never known it to fail.—Mrs. Curtis Baker, Bookwalter, Ohio. Sold by R. E. McRoberts, druggist.

The sweetest woman in the world is the one that can keep her mouth shut the longest.

It is easier to keep well than get cured. DeWitt's Little Early Risers taken now and then, will always keep your bowels in perfect order. They never gripe but promote easy gentle action. F. P. Frisbie.

When a girl reaches the age of twenty-five, she loses all desire for birth-day parties.

**A Good Cough Medicine.**

Many thousands have been restored to health and happiness by the use of Chamberlain's Cough Remedy. If afflicted with any throat or lung trouble, give it a trial for it is certain to prove beneficial. Coughs have resisted all other treatment for years have yielded to this remedy and perfect health been restored. Cases that seemed hopeless, that the climate of famous health resorts failed to benefit, have been permanently cured by its use. For sale by R. E. McRoberts, druggist.

The man who seeks your friendship has a motive in view; the woman who does so has two or three of them.

**Heartburn.**

When the quantity of food taken is too large or the quality too rich heartburn is likely to follow, and especially so if the digestion has been weakened by constipation. Eat slowly and not too freely of easily digested food. Masticate the food thoroughly. Let six hours elapse between meals and when you feel a fullness and weight in the region of the stomach after eating, indicating that you have eaten too much, take one of Chamberlain's Stomach and Liver Tablets and the heartburn may be avoided. For sale by R. E. Roberts, druggist.

Man was made to mourn, but he has a lot of things so that woman has taken most of the job off his hands.

**The Best Remedy for Stomach and Bowel Troubles.**

"I have been in the drug business for twenty years and have sold most of all the proprietary medicines of any note. Among the entire list I have never found anything to equal Chamberlain's Colic, Cholera and Diarrhoea Remedy for all stomach and bowel troubles," says O. W. Wakefield, of Columbus, Ga. "This remedy cured two severe cases of cholera morbus in my family and I have recommended and sold hundreds of bottles of it to my customers to their entire satisfaction. It affords a quick and sure cure in a pleasant form." For sale by R. E. McRoberts, druggist.

**Stenography and Typewriting.**

Miss Lenna Hobbs, who recently graduated in shorthand and type writing at Midway College, has an office at the Telephone Exchange, where she is prepared to do work of this kind with neatness and dispatch. Charges are reasonable, and satisfaction guaranteed. If you have typewriting to do, take it to her.

**Kentucky Fair Dates.**

The following are the dates for holding the Kentucky fairs this year so far as reported:

Guthrie, July 4-3 days.  
Houstonville, July 24-3 days.  
Danville, August 6-4 days.  
Madisonville, August 6-5 days.  
Lawrenceburg, August 20-4 days.  
Shepherdsville, August 20-4 days.  
Lagrange, August 21-4 days.  
Shelbyville, August 27-4 days.  
Springfield, August 28-2 days.  
Bardonia, September 3-5 days.  
Elizabethtown, September 10-4 days.  
Bowling Green, September 10-4 days.

## FARM & GARDEN

A few work mules sold Monday at \$10 to \$80.

Only ten or twelve head of cattle here Monday.

Allen Beazley bought a handsome mare at Corbin Monday at \$175.

G. A. Swinebroad has bought several head stock cattle Monday at 24 and 3c.

With the rains in the West the prices of grain begin to decline.

The drought has caused a vegetable famine in some portions of Georgia.

G. A. Swinebroad bought several lots of lambs in the last few days at 24 and 3 cents.

For Sale.—Black Jack, white points, foaled 1896. By Joe Blackburn. J. T. McQuerry, Hammock, Ky.

The demand for good horses was strong Monday, but there were none for sale. Good ones are scarce.

Cogar & Davis purchased the wheat crop of Jake Bonta, of Mercer at 58c. It will probably amount to 4,000 bushels.

It is now a foregone conclusion that tobacco will be less than a half crop, even though it should be seasonable hence forward.

Corn is, next to sugar cane, the principal crop grown in Queensland, and is one of the most important products of New South Wales.

A commercial estimate puts the area sown to broom corn in Illinois this season at 80,000 acres, an increase of 19,000 acres over the area of 1900.

Missouri butter won over all other Western dairy product at the Buffalo Exposition. The Missouri cow leads in peace as does the Missouri mule in war.

Four hundred and sixty-two acres of farm land, the property of the estate of Robinson White, were sold this week for a total of \$22,547.30, in Fayette.

The wheat being threshed is splendid in quality, although somewhat disappointing in quantity. It is still selling at fifty cents.—Winchester Democrat.

The farmers of Millersburg vicinity have formed a pool for the sale of their wheat. So far 57 cents is the best offer they have received, and this they have declined.

The hot dry spell is playing sad havoc with corn prospects, but with good crops of wheat, rye, hay and oats to go on, the farmer has a few things for which to be thankful.

Twenty thousand mutton sheep are being fattened at Rocky Ford, Colo., on beet pulp, with a little corn added. There is another "waste product" being utilized turned into mutton.

Now that incubators are cheap get one for your boy or girl and help them to learn its tricks and become good hatchers. Eggs are cheap now, so the trial will cost but little.

In 1880 there were less than 200 registered Herefords in America—today there are more than 200,000. "Lord Wilton," the famous Hereford sire, sold at \$19,000, and many other specimens have sold for \$5,000 or more. Texas and New Mexico cattlemen have been heavy buyers of these fine animals.

Some 200,000 cattle are grazing on the Oklahoma Territory of Indian lands to be thrown open to settlement by the government on August 6th, and the owners of them declare that there is no section to take them, and are asking a delay for opening the lands till October, as the cattle are now unfit for market.

Harrodsburg Democrat:—One of our representative farmers tells us that the wheat crop of this and adjoining counties is fully a third off in quantity and considerably off in quality, very few crops grading 60 pounds or No. 2 wheat. This farmer thinks there is a combine between speculators and grain dealers to buy wheat very low, and says in view of the very hot, dry weather in the western middle states, he would advise farmers to hold their wheat for better prices, which are sure to come.

From January 1 to July 4, 1901, there were shipped from Argentina 26,444,000 bushels of wheat and 14,904,000 bushels of corn, against 54,306,000 bushels of wheat and 11,082,000 bushels of corn during the corresponding part of 1900. It thus appears that during the first half of 1901 the exports of corn were over one-third greater than during the first half of 1900, but the exports of wheat were considerably less than half as great.

Wheat and oat stubbles seeded to clover and grass should have the weeds kept down. We have seen many a good stand of clover and grass at harvest time killed by the weeds in the fall. Set the blade of the mowing machine as high as it can be run, and clip off the weeds so as to prevent seeding, and allow the cut tops to remain as mulch. This will shade the clover and grass and prevent the weeds from drawing all the moisture and fertility from the land.

An exchange strikes its poetic harp in the following: "Sing ho for the little brown hen; such a couple was never on earth below, to feather the nests of men. With the golden product of good Queen Bess no 'udder" can compare. While the snowy fruit of the cackling 'beaut' brings a solace for every care. Men risk their lives for the golden ore laid deep in a frozen clime, when these faithful servants bring them more and peace at the self same time. With pasture in plenty and bugs galore, they'll never lack for feed; their stock is at par at the grocery store for the things the farmers need. Then three times three for the bovine 'she' and three for the female fowl, at the farmer's door, which they feed before, no wolf has a chance to howl. No poet's dream e'er hatched a theme more worthy of poet's pen than the kindly queen of the pasture green and the busy cackling hen."

## THE CURSE OF WEEDS.

How are weeds to be eradicated? Know what kinds of weeds infest your premises. Know their characteristics and habits of growth. Learn how they propagate themselves. Study them from every standpoint. Then apply the remedy which will suggest itself. Concerted action among farmers determined to rid their farms of all forms of objectionable weed life will attain the ends sought. Individual activity in this direction is highly desirable, but without harmonious action among all interested it will require a much longer period. Individual effort will beget larger interest and purpose, and the result will be that in a short time the entire country will be inoculated with the weed-destroying fever. Then weeds will go.

The destruction of annual weeds is accomplished by preventing them from producing seed, which involves the cutting off of tops before seed is produced. Biennials, which propagate by root stalks and seeds, require more rigid methods of eradication. They yield only to persistent cutting off of tops which prevents seeds from forming and deprives them of plant food from the roots. Perennials are still more stubborn than either of the others. Most weeds are perennials. Annuals are the most easily destroyed. All kinds of weeds, whether annuals, biennials or perennials, may be destroyed if their tops be kept cut off at the surface of the ground, no stems being permitted to develop. This results in the starvation of the roots, as it were; the laboratory with which they act in harmony being removed their own functions are destroyed. Many kinds of weeds may be smothered out by sowing the infested land to grass or other crops which are known to possess hardness and thick-growing habits.

Let every farmer consider himself a committee appointed by his best interests to eradicate all the weeds on his own farm. He thus may begin the weed destruction movement whose outcome will be the total elimination of the thousands of varieties of weeds which so seriously menace agriculture and so materially lessen its returns.—Farmers' Voice.

## HANDY CORN MARKER.

Will Mark Two Rows at a Time Distinctly. No Matter How Rough the Ground May Be.

The implement shown in the illustration will mark two rows at a time, and make them distinct, no matter how rough the ground may be. The construction is readily shown in the accompanying illustration. The

guide, c, is so arranged that it can be reversed on turning, by simply throwing it over to the other side. It is bolted to the block, r, and being in front of a, is held in place; e is a round iron and springs readily if it comes in contact with a clod or stump. This arrangement for attaching the guide is much better than using a chain.—Orange Judd Farmer.

## Big Loss Caused by Insects.

It is estimated that a tenth of the agricultural output of this country is ruined annually by insects, hence the necessity of keen, careful observation on the part of the farmer. As a rule it is not the creature responsible for serious loss of crops that is first seen, but the damaged crop itself. The reverse should be true. By using his eyes more freely, the average farmer could foresee in most cases damage to his crops by injurious pests, and arm himself with the weapons of defense. In some instances disastrous insect invasions could be largely averted, if facts were generally reported to the various experiment stations.—Orange Judd Farmer.

## WITH A RAINMAKER.

BY REV. CHAS. M. SHELDON.

Rev. Charles M. Sheldon, author of "In His Steps," tells in St. Nicholas a story which is described as "founded on fact."

I had been attached to the United States signal service in one of the western states, he writes, and, obtaining leave of absence for two weeks, I had also, by dint of careful and influential correspondence with the division superintendent of the X. R. R., obtained permission to make a trip over the road with the professional rainmaker employed by the company.

The car was divided into two compartments. One was fitted up with sleeping and dining arrangements; the other contained the mechanical and electrical appliances used by the rainmaker. It was in the professional end of the car that I was seated, watching the rainmaker as he busied himself with certain pieces of apparatus that looked as mysterious to me as if they had been the stock in trade of a necromancer. Presently he finished his task and came and sat down beside me. We sat looking out on the prairie as we sped dustily along, and the rainmaker answered my questions with good-natured amusement at some of them. The whole affair was mysterious to me, and the "professor's" explanations only added to the mystery. To tell the truth, I had no faith in the power of the rainmaker's combination of chemicals and electricity to produce a drop of moisture.

It was nearly dark when we drew into the town where we were to be sidetracked and left to make the trial. It was a railroad town, with a group of shops and three or four saloons. We were backed upon the siding, uncoupled from the train, which went on, and at once the rainmaker made his preparations for letting the gases out into the air.

A crowd of curious men and boys had gathered, knowing that the rainmaker was coming. A committee of citizens from the town was on hand. By this time it was dark, and the apparatus was in shape. The battery was turned on, and in a few moments I was informed that the gases were being liberated. There was a hissing in connection with the work, and the whole thing was very undemonstrative.

"We might as well eat our supper now," said my companion.

"Don't you have to watch anything?" "No; it goes itself," he answered. "That's the beauty of it."

"I think we shall get a storm within 24 hours," said the rainmaker, after supper. I did not say anything. To get a little exercise I stepped out of the car and pushed open one of the side doors a little way to look out. A large group of men could be seen running down the track to-

# Poison Oak Poison Ivy BOTANICAL REPTILES

Their Sting Sets the Skin on Fire and Fills the Veins with a Violent, Lingering Poison

These plants seem to partake of the nature and character of the serpent; in winter time being comparatively harmless, but when warmed into life by spring and summer heat they become extremely venomous and spiteful, emitting a milky juice that burns and blisters like a fiery acid, producing quick inflammation and painful swelling. Some persons are so susceptible to these vegetable poisons that coming in their vicinity will produce almost as much discomfort and pain as handling them; their thin and sensitive skins seem to absorb from the surrounding atmosphere the acrid juices emanating from these plants. There is seldom a picnic or family gathering in the woods but that some member of the party comes in contact with Poison Ivy, Oak or some other hurtful plant or weed, and through the open pores the poison is carried to the overheated blood. Poison Ivy is found clinging to tree trunks, fences or rocks, sometimes reaching great heights; the leaves are nearly square in shape, smooth and shiny and three on each stem; the flowers are of a greenish white color, and the berries pale green or white. The Oak is a small shrub, seldom more than three feet high, its size depending upon the nature of the soil, location, etc.; the leaves are long and pointed with saw-like edges and a downy appearance underneath. While the two plants are entirely unlike in appearance, the poisonous effects are very similar.

After the swelling subsides the skin remains for a long time in a rough and inflamed condition, dotted here and there with bad looking ulcers and little festering sores. It is truly remarkable with what regularity and certainty the disease returns, and always on schedule time, appearing the same month, day and hour, almost, that it did the year before. Don't be deceived should all the signs of the poison vanish soon after the first attack—the acrid juices have been taken through the open skin pores into the blood, and the most persistent and faithful use of external remedies can never dislodge them, and next season, and for years to come, you may expect to endure the same bodily tortures; the blood in the meantime becoming so saturated and charged with the poison that each succeeding attack leaves the body weaker and recovery more uncertain and slow, and thus the once simple malady ends disastrously.

For every poisonous plant, tree, shrub or flower, nature has wisely provided an antidote or cure. The roots and herbs of which S. S. S. is composed quickly, surely and permanently overcome and drive out of the blood and system the poison of Poison Oak, Virginia Creeper, Thunder Weed, Sumac and vegetable poisons of every variety. S. S. S. will be found an invaluable and perfect antidote for poisons of this class. There is never any return of the aggravating symptoms after a course of S. S. S., as it destroys every vestige of the poison.

Don't abandon hope because of repeated failures. State your case to our doctors; we feel sure they can help you. Medical advice will cost you nothing and is strictly confidential. Book on Blood and Skin Diseases free.

SWIFT SPECIFIC CO., Atlanta, Ga.

RETURNED EVERY SPRING FOR 18 YEARS.

Mrs. A. N. Bennett, of Toccoa, Ga., whose case is similar to thousands of others who come in contact with these plants, says: "When eight years old my little brother and I were poisoned by handling poison oak, and it broke out on us every spring for eighteen years. Some one recommended S. S. S., which cured us completely, and we have seen no signs of the eruptions for several seasons."

ward us. They stopped on the other side of the switch from the siding, and by the light of the burning snuff we could see them tearing up the rails. The rainmaker closed the door and locked it. He then secured the other door in the same way. A small lamp was hung from the shelf. He blew it out and whispered to me: "It's our best chance of escaping notice. The men are excited; they have been drinking, and there is no telling what they may do, or what the blood is up to."

Ten minutes went by. Suddenly a strange crash was heard. It was followed by another and another, each nearer than the first, and accompanied with great yells and cries.

"What can they be doing?" I could not help asking.

At that instant, before my companion could answer, a peal of thunder rolled over the prairie and above the shouts of the mob. The rainmaker smiled at me, as much as to say: "I told you so," and what he would have said I do not know, for the next moment we felt the car swing violently up and down, as if caught on the swell of a wave.

The heavy trucks went up on one side, and then came down with a jar that smashed nearly every bottle on the rainmaker's shelves. There was an awful yell from the mob, and again the car rose and fell, as if being lifted by giant hands. "Great heavens!" cried the rainmaker. "They are trying to tip the car over!"

It was true. The mob had resorted to this method of destroying railroad property, and the crashes we heard had been made by the overturning of cars. Ours, being like the rest on the outside, may not have been distinguished by the men. We tried in vain to unlock the doors and get out. We were surrounded and pounded, but the car rose, swayed on the tracks sickeningly for one second, and then over it went, with us inside!

The crash that followed so stunned me that for awhile I did not realize what had happened.

My first return of clear ideas came on finding that I was drenched with water and dripping as if in a river. I thought at first of the rainmaker, curiously wondering if he thought this was the scientific way of producing moisture. The tank in the top of the car had broken open and the water had splashed out all over us.

The side of the car had split in such a way that I was able to crawl out from where I lay and get my head and shoulders above the water. By this time some of the more sober men in the crowd realized the situation. I was half kindly, half roughly dragged out from the broken car, bruised and bleeding, but with no bones broken. Next I saw the rainmaker standing near the track, his face set with broken glass and one arm broken. The colored crowd was nearly killed by fright, but he escaped with severe bruises.

I spent the rest of the night in the home of a private citizen who kindly cared for the professor and myself. The strike continued a week longer, and we were unable to get away, even if we had felt well enough. I should say, to make the story complete, that on that memorable evening about midnight a tremendous thunderstorm burst over the town and drenched the country for miles around. My friend the rainmaker claims it as the result of his scientific efforts.

Unexpected Encouragement.

"So this is the end," he bitterness cried. Displaying the note she had written. "Just now it's the end," she said with caution replied.

Regretting to see him thus smitten. "And yet," she went on in her feminine way.

"Don't deem the world barren and hollow. What'er woman writes, just remember, a postscript is likely to follow."

—Chicago Post.

# DAVIDSON & LANDRAM. Real Estate Agents. — LANCASTER, KY. —

Having associated ourselves together for the purpose of doing a general Real Estate business, we offer our services to the public, both to those who wish to buy and those who wish to sell. Those who have farms, or other real estate they wish to sell will please call at the law office of R. L. Davidson, over Stormes' drug store, and list their property for sale with us. We will advertise it extensively in the CENTRAL RECORD, also by hand-bills and business cards, and make no charge for our services unless a sale is made either directly or indirectly. Titles will be examined, contracts and deeds written, mortgages released, etc., without extra charge.

If you have property for sale you can sell it quickly and to your advantage by listing it with us. Below is a partial list of the property already listed with us:

No. 1, House and Lot in McCreary Ky. Fine location for Doctor or Merchant.

No. 6, Farm of 60 Acres, in Rock castle County, in the Bottom of Copper Creek.

No. 9, House and Lot in Danville, Ky., in Otter Addition on East Main Street.

No. 10, House and Lot in Lancaster, on North side of Danville Avenue.

No. 11, Farm of 108 Acres, Six Miles from Lancaster, on the Kirkville Pike.

No. 12, Farm of 84 Acres, Two Miles from Lancaster, near the Buckeye Pike.

No. 13, House and Lot, near Sulphur Well, Lowell, Kentucky.

No. 14, Farm of 80 Acres at Logana, Jessamine County, Kentucky.

No. 15, Farm of 342 1-2 Acres, Situated 1 1-2 Miles South of Bryansville and

No. 16, Farm of 80 Acres at Logana, Jessamine County, Kentucky.

No. 17, Farm of 158 1/2 Acres in Polleys Bend of Kentucky River.

No. 18, Farm of 150 Acres, on Head Waters of Drakes Creek in Garrard County, about 8 acres under cultivation, balance in grass, clover, timothy and blue grass. Good pasture land under good fence and well watered by springs and ponds; 12 acres in orchard in fruiting prime, best varieties of all kinds of fruit. The house is not a mansion, but a good substantial country dwelling 1 1/2 story high, with a store room 28x20 feet adjoining it. About 1 mile from Lawson's School House and 2 1/2 miles from Good Hope Baptist church. Examine this property if you want to buy.

No. 19, Farm of 158 1/2 Acres in Polleys Bend of Kentucky River.

No. 20, Farm of 158 1/2 Acres in Polleys Bend of Kentucky River.

No. 21, Farm of 158 1/2 Acres in Polleys Bend of Kentucky River.

No. 22, Farm of 158 1/2 Acres in Polleys Bend of Kentucky River.

No. 23, Farm of 158 1/2 Acres in Polleys Bend of Kentucky River.

No. 24, Farm of 158 1/2 Acres in Polleys Bend of Kentucky River.

No. 25, Farm of 158 1/2 Acres in Polleys Bend of Kentucky River.

No. 26, Farm of 158 1/2 Acres in Polleys Bend of Kentucky River.

No. 27, Farm of 158 1/2 Acres in Polleys Bend of Kentucky River.

No. 28, Farm of 158 1/2 Acres in Polleys Bend of Kentucky River.

No. 29, Farm of 158 1/2 Acres in Polleys Bend of Kentucky River.

No. 30, Farm of 158 1/2 Acres in Polleys Bend of Kentucky River.

No. 31, Farm of 158 1/2 Acres in Polleys Bend of Kentucky River.

No. 32, Farm of 158 1/2 Acres in Polleys Bend of Kentucky River.

No. 33, Farm of 158 1/2 Acres in Polleys Bend of Kentucky River.

No. 34, Farm of 158 1/2 Acres in Polleys Bend of Kentucky River.

No. 35, Farm of 158 1/2 Acres in Polleys Bend of Kentucky River.

No. 36, Farm of 158 1/2 Acres in Polleys Bend of Kentucky River.

No. 37, Farm of 158 1/2 Acres in Polleys Bend of Kentucky River.

No. 38, Farm of 158 1/2 Acres in Polleys Bend of Kentucky River.

No. 39, Farm of 158 1/2 Acres in Polleys Bend of Kentucky River.

No. 40, Farm of 158 1/2 Acres in Polleys Bend of Kentucky River.

No. 41, Farm of 158 1/2 Acres in Polleys Bend of Kentucky River.

No. 42, Farm of 158 1/2 Acres in Polleys Bend of Kentucky River.

No. 43, Farm of 158 1/2 Acres in Polleys Bend of Kentucky River.

No. 44, Farm of 158 1/2 Acres in Polleys Bend of Kentucky River.

**"Strong and hearty boy, is it, and no pain? That's good!"**

The joy of a new arrival in the family is usually overcast by the shadow of the pain and discomfort the expectant mother must bear. If she knew of and used **"MOTHER'S FRIEND,"** this would be all dispelled. Tell your friends about it, as being a simple liniment, exclusively for external use, that relaxes the muscles so that pain and suffering are unknown.

It will be sent by express paid on receipt of price, \$1.00 per bottle, or by mail on receipt of price, \$1.00 per bottle, plus postage, containing sensible advice to expectant mothers.

**NOTES FROM THE FIELD.**

The rail fence is a curiosity in some parts of central Illinois. Everything, has its day, but it is not likely that the Belgian hare will celebrate its day in this country.

This is the time to test seeds. Don't plant or sow any kind of seeds without testing them for germinating power or vitality.

Lots of beautiful seed catalogues free for the asking. Many of them are gorgeously illustrated and lithographed. Look over them.

Complete fertilizer is one which contains the three essential fertilizing constituents, namely, nitrogen, phosphoric acid and potash. Barnyard manure is an example of a complete fertilizer since it contains all three of these constituents.

It is time to be testing the clover-seed. There is but little economy in getting clover seed 75 cents a bushel cheaper than the market price and having one-fourth of the sowing fail of germination. Moreover, unless you test the seed you never will know where the fault lay that the stand of clover was poor.—Farmers' Voice.
